

Computer & IT/Engineering Intern Position

Located in Paragould, Arkansas with approximately 70 employees, AXIS is a joint venture between American Railcar, Inc. of Saint Charles, MO; Amsted Rail of Chicago, IL; and Union Tank Car of Chicago, IL. AXIS is a state of the art manufacturing company started up in 2008 with a total capital investment of approximately \$100M, manufacturing railcar axles for a worldwide market. AXIS is a completely automated facility producing rough turned axles through a process of forging, heat treating, and machining.

AXIS is seeking a qualified Computer & Information Technology student for a summer intern position. The position will be 30 hours per week through the summer, with the possibility of continuation during the school year with flexible work hours. It is a paid position at a rate of \$14.00 hourly.

Job responsibilities and areas of training include:

- MS SQL database management
 - Writing SQL queries
 - Verifying product tracking and genealogy
 - Records cleanup
- SSRS reporting
- General IT desktop support
- Web site management
- Working closely with, and providing ancillary services for engineering staff
- Languages used: MS SQL, C#, HTML, jQuery, ASP.NET MVC, PHP
