Arkansas State University - Computer Science
Infrastructure Survey

Dear student,

Every enrolled college student pays an infrastructure fee each semester. As a result, the ASU College of Sciences and Mathematics Infrastructure Committee understands that you (the student) should be involved in the decision-making process to improve our infrastructure. The dean, chair, and students on the committee for the Computer Science Department want to listen to your ideas in order to present students' requests for use of infrastructure fees. For the Computer Science Department, please list any infrastructure (i.e. chairs, ceiling tiles, bathroom stalls, desks, computers, etc.) that you see needs to be improved.

NOTE: Please be realistic as the Computer Science Department does have an unlimited financial budget and is not allowed exceed a certain limits.

List Your Infrastructure Improvements Here
